1 Introduction

1.1 What is the valuation service?

Dynamic Planner's valuations service will allow you to obtain valuations direct from any of our supported platforms and providers. The rest of the guide will refer to these as integration partners.

This guide will not go through how to obtain valuations using a back office/CRM system: intelliflo Office, Iress Xplan, Time4Advice Curo. Please refer to other guides in the Support Hub.

Setting up the valuation integration will help with the initial data entry of your clients' holdings, saving you time as well as streamlining the review process. You will be able to see where your clients' holdings are on Dynamic Planner's 1-10 risk model quickly and efficiently.

Once you have set up the required credentials, you will be able to request up to date valuations for your client's policies.

Valuations can only be requested for products that are supported by our integration partners. The list of supported products for each can be found in this guide.

Unsupported products and their valuations may need to be input into the system manually.

Please note: Dynamic Planner does not support valuations for Trustee or Nominee held investments, or for clients under 18 years old.

Notes and information to be aware of:

- ▶ Each integration partner will require different information to register. Please ensure you have completed all steps for each one you want to obtain valuations for.
- ▶ If the valuations are provided by bulk download, the valuation shown on Dynamic Planner will be at close of business on the previous working day. This is the valuation that will also be shown on our mobile app, Tram.
- ▶ Where there are pending trades, this information will not come into Dynamic Planner.
- ▶ If your client has been given access to the Tram app, depending on the nature of the valuation service we hold with the integration partner, they may receive daily valuations without further input from you at the adviser firm.
- ▶ You can switch on the direct valuations even if you use one of the back office integrations. Please ensure that the policy numbers match exactly so that duplicates are not created. For example Iress AB123456-001 and Dynamic Planer AB123456 will create duplicates.

1.1.1 Aim of the Valuations guide

This guide will provide you with all the information you need to request and set up integration partner credentials, then request valuations for your clients.

1.1.2 What does this guide consist of?

These steps will guide you through the process and help you to answer questions.

Getting started	There are a number of steps to go through to get valuations into Dynamic Planner. This can be on both Dynamic Planner and the Integration Partner's side.
Requesting valuations	How to enter in your client's policy number and request valuations
List of integration partners and the products supported	A full breakdown of each of our integration partners, how to register for each, the supported policy/account numbers and the supported products
Troubleshooting	Some troubleshooting questions

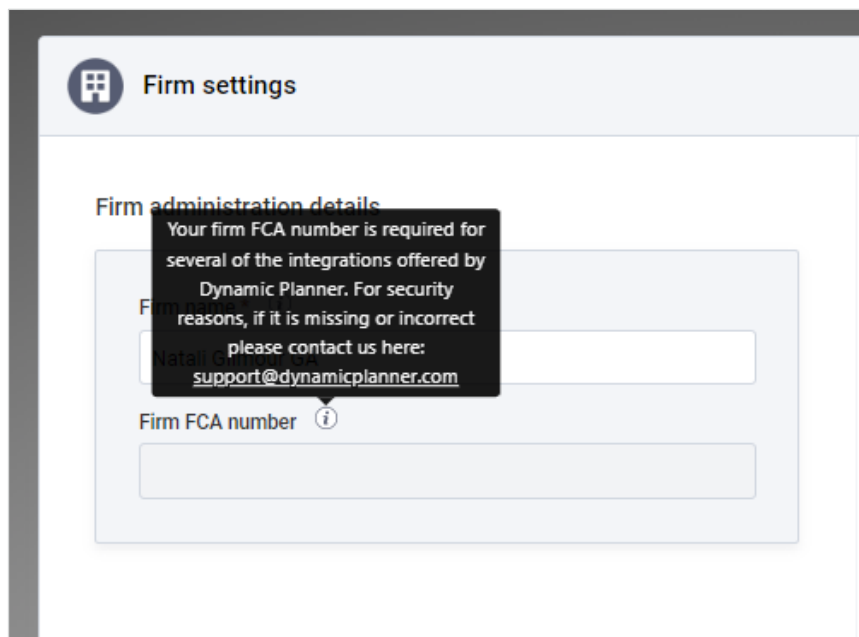

1.1.3 How to use this guide

If this is the first time that you have used Dynamic Planner, we suggest that you work your way through the user guide. That way, you can ensure that you visit the section(s) relevant to you and understand the tasks you need to complete.

If you have used Dynamic Planner before, we suggest that you use this as a reference guide when you are unsure of the steps you need to take to complete a task.

2 Getting started – FCA number

In the Dynamic Planner homepage, go to **Settings**. On the left hand menu, select **Firm Details**, then click **Firm settings**. Please check that your firm FCA number has been entered on the page. If it is blank, please contact support@dynamicplanner.com to have it updated.

3 Register with the integration partner

Before you can request valuations for your client's plan, you will need to carry out some important steps first.

1. Choose the logo for the integration partner you want to receive valuations from.
2. Follow the instructions on the page to find out how to register with them.
3. When the integration partner has confirmed that you are now set up to receive valuations, come back to the settings, integration pages and complete the set up.
4. Wait a full working day to allow your credentials to register against our security database, then try to request a client valuation.

Establishing your credentials for an integration partner is usually a one-off activity.

Go to the **Settings and Insights** area to configure Dynamic Planner for your organisation.

Client planning

Profile, review and build cash flow plans for your clients.

Research

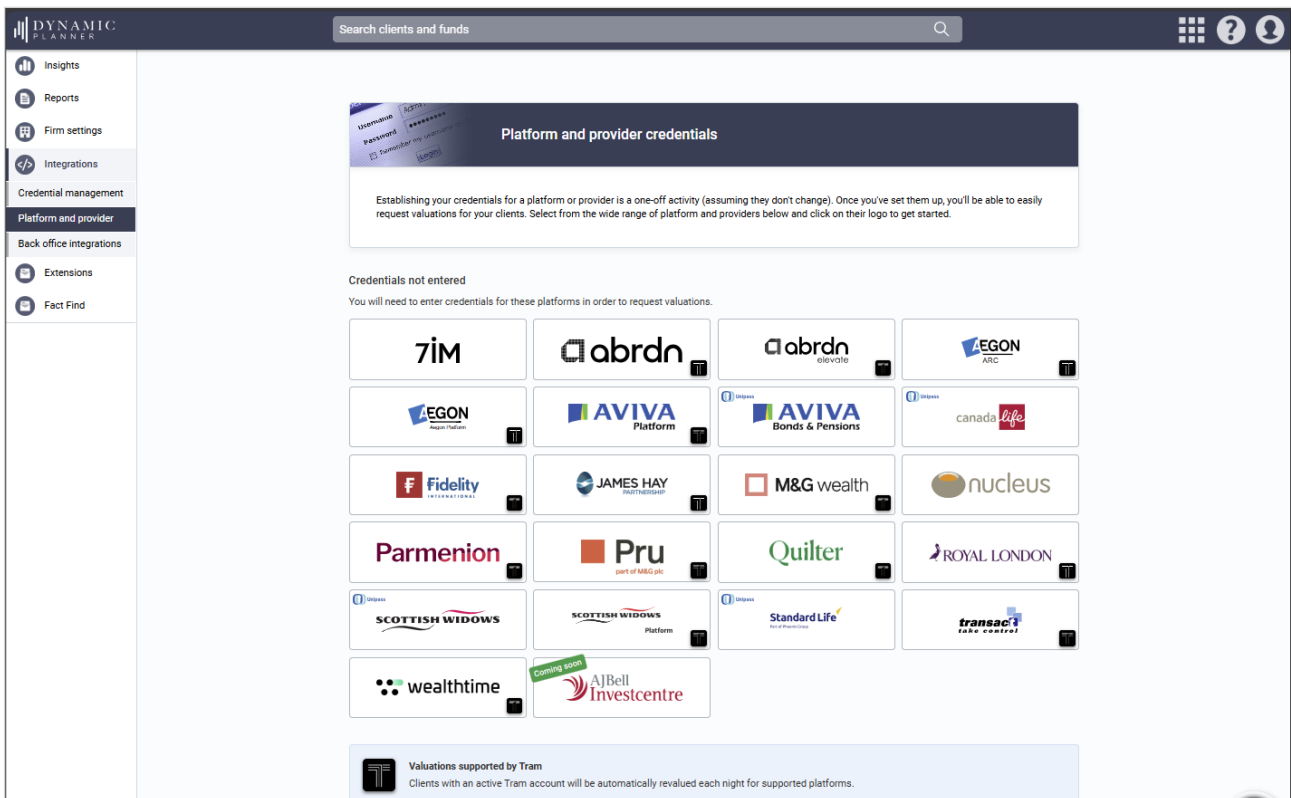

Research funds, MPS and products.

Define your target market, manage product lists, fund lists and model portfolios.

Settings and Insights

Configure Dynamic Planner for your organisation and access MI.

On the left hand menu, select **Platform and provider**:

Choose the name of the integration partner that you want to set up.

Please note: some integration partners have 2 different services if they also operate a platform. You may need to register for both.

- ▶ abrdn Wrap and abrdn Elevate
- ▶ Aegon ARC/AOR and Aegon Platform
- ▶ Aviva Bonds & Pensions and Aviva Platform
- ▶ M&G Wealth and Pru
- ▶ Scottish Widows and Scottish Widows Platform

Note: If a platform or provider is missing and you would like us to integrate with them, please contact Integrations@DynamicPlanner.com.

If you have previously entered in credentials for an integration partner, you will see this screen is split. At the top you will be able to see the credentials already entered and below the ones you need to enter.

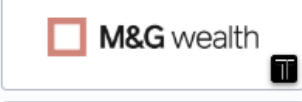

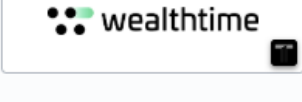

Credentials entered

These are platforms and providers for which you've already entered credentials.

			
---	---	--	---

Credentials not entered

You will need to enter credentials for these platforms in order to request valuations.

Valuations supported by Tram
Clients with an active Tram account will be automatically revalued each night for supported platforms.

4 What details do I need to provide to the integration partner? Not Unipass

Each integration partner will have different registration requirements.

By clicking on the integration partner logo, you can check how to get registered by reading the information to the right of the page under **Need help?**.

In the example below for Aegon Platform, you will need to sign into their platform and obtain a token and organisation unit ID by going to the Reports section on the platform.

 ✕

1. Accept terms and conditions

All users and advisers having business written on their behalf or writing business using the Aegon Platform integration must accept these [terms and conditions](#).

Accept terms and conditions *

2. Enter your credentials

Token *

Organisation unit ID *

[Validate credentials](#)

Need help?

To obtain your token and organisation unit ID, please register with the Aegon Platform. You can find this and request this on the platform from the 'Reports' section by selecting 'Manage Bulk Data file integration'. Once collected, the token is valid for 5 days.

Both the token and organisation unit ID are numeric only.

If your MI account password changes, you will have to repeat the above steps.

For integration support please contact:

escalationteam@aegon.co.uk

It will take a full day for your valuations to become available within Dynamic Planner from the time you register your credentials.

[Cancel](#) [Save](#)

However for Aegon ARC/AOR, you will need to email the Escalation Team to ask them to set you up for Dynamic Planner valuations for either ARC and/or AOR.

 ✕

1. Accept terms and conditions

All users and advisers having business written on their behalf or writing business using the Aegon integration must accept these [terms and conditions](#).

Accept terms and conditions *

Need help?

For integration support please contact:

escalationteam@aegon.co.uk

Please note Aegon integration also requires your Firm FCA number to be added in Dynamic Planner. For security reasons, our Client Success team must add this on your behalf. If yours is not yet set up, please contact us here: support@dynamicplanner.com.

It will take a full day for your valuations to become available within Dynamic Planner from the time you register your credential.

2. Set up integration

To enable Aegon ARC Bulk Valuations you must first email escalationteam@aegon.co.uk and ask for your firms ARC bulk valuation feed to be switched on for Dynamic Planner.

Assets on AOR are provided via a separate feed, so please ask for this as well if required. Once the setup is complete, the Aegon team will provide you with a "Connect Id" which you can enter below.

ARC Connect id

AOR Connect id

CancelSave

Once you have received confirmation that the integration partner has set up valuations for your firm to be received by Dynamic Planner, go to step 6 on page 14.

5 How to get started with integration partners supported by Unipass

There are a small number of integration partners who require registration by uploading your Unipass certificate, which contains details of your FCA number and business postcode.

The integration partners who require Unipass are:

- ▶ Aviva Bonds & Pensions
- ▶ Canada Life
- ▶ Scottish Widows
- ▶ Standard Life

Please note: for Aviva and Scottish Widows, these are NOT the platform services.

If you do not already hold a Unipass certificate, follow the steps listed on the Unipass website <https://www.unipass.co.uk/> to apply for a certificate.

You may need to register for back office / contract enquiry valuations with the integration partner. You should check in the correct section for the integration partner in this guide for a link to their website for further information.

To get started in Dynamic Planner, click on one of the integration partners that supports Unipass.

✕

1. Accept terms and conditions

All users and advisers having business written on their behalf or writing business using the CanadaLife integration must accept these [terms and conditions](#).

Accept terms and conditions *

2. Set your Unipass certificate details

Username
Email address
Firm name
Issuer
Valid from
Valid to

Reload certificate
Validate credentials

Need help?

Please follow the steps listed on the [Unipass website](#) to apply for your certificate.

Unipass help desk

The helpdesk is open Monday-Friday 9am-5pm, except some bank holidays in England or Scotland.

Tel: 0131 385 8888

Unipass credentials are currently supported for the below integration partners:

Bonds & Pensions

UK & Ireland

Cancel
Save

You will be presented with the screen above asking you to:

1. Read and accept Dynamic Planner's terms and conditions for using the service.
2. Set your Unipass certificate details:
 - a. You will be required to load your certificate. **Please note:** you must be on the same computer that you used when you downloaded your Unipass certificate.
 - b. Click **Reload certificate**. A pop up box should appear and Unipass is likely to be shown as 'Origo Root CA – G3'. **Select your valid certificate**.
 - c. Once this has been loaded, the button to validate credentials will turn to green.
 - d. Click to **Validate credentials**.
3. Make sure you hit **Save** in the bottom right corner to complete the process.

When you have successfully added your Unipass certificate, **you will have completed the process for all Unipass integration partners** within Dynamic Planner.

Notes:

- ▶ Check with the integration partner to ensure that you are set up at their end for valuations to be obtained by Dynamic Planner.
- ▶ You may need to have registered for online access to their secure extranet.
- ▶ Where a provider works with Unipass, you will have to upload your new certificate when it expires each year.
- ▶ If you need help obtaining a Unipass certificate or have any issues with Unipass, you can access the online support portal: <https://unipassidentity.zendesk.com/>
- ▶ Valuations shown in the Tram app are not supported by Unipass. To ensure that your client has an up to date valuation, you will manually need to request valuations on a frequent basis.

6 Completing settings page in Dynamic Planner

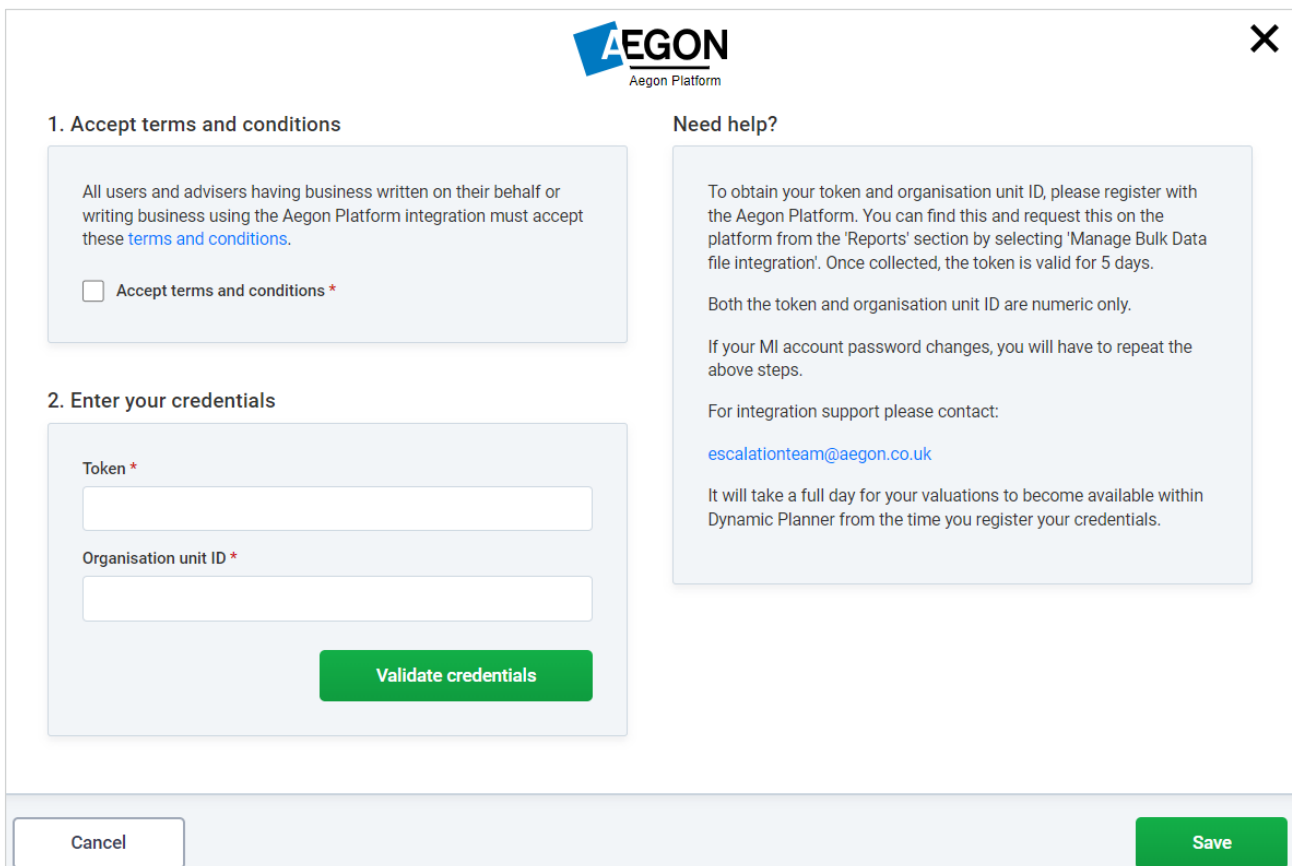

Please note: the following steps should only be done once you have received confirmation from the integration partner that they have set up your firm for valuations to Dynamic Planner AND your Firm FCA number is shown in the Firm Settings area.

Only when you have received confirmation from the integration partner that you have been successfully set up for receive their valuations in Dynamic Planner, you should return back to the **Settings** area to complete the process.

Click on the integration partner logo and follow the instructions on screen.

Following the example for Aegon Platform:

1. **Accept terms and conditions** for using the integration service
2. **Enter your credentials**, if required
3. **Validate credentials**, if required
4. Click **Save** in the bottom right corner.

You will need to wait a full working day before you can request any valuations.

No credentials to be entered?

Not all integrations require you to enter credentials but you will still need to ensure you are set up with the integration partner. When you have received confirmation your firm has been set up, come back to the **Settings** page for the integration partner to complete the set up.

 ✕

1. Accept terms and conditions

All users and advisers having business written on their behalf or writing business using the abrdrn integration must accept these [terms and conditions](#).

Accept terms and conditions *

Need help?

To enable abrdrn valuations, you must confirm that you give permission for the data share by clicking [here](#).

Please note that to use this service, abrdrn also require your Firm FCA number to be added in Dynamic Planner. For security reasons, our Client Success team must add this on your behalf. If yours is not yet set up, please contact us here: support@dynamicplanner.com.

It will take a full day for your valuations to become available within Dynamic Planner from the time you register your credentials.

Cancel

Save

You should read and **accept** our **Terms and Conditions** for using the integration service, then click **Save**.

Again, you will need to wait a full working day before you can request any client valuations.

When you return to the Platform and Provider credentials page, you will see a split between credentials you have and have not entered:

Credentials entered
These are platforms and providers for which you've already entered credentials.

			
---	---	--	---

Credentials not entered
You will need to enter credentials for these platforms in order to request valuations.

			
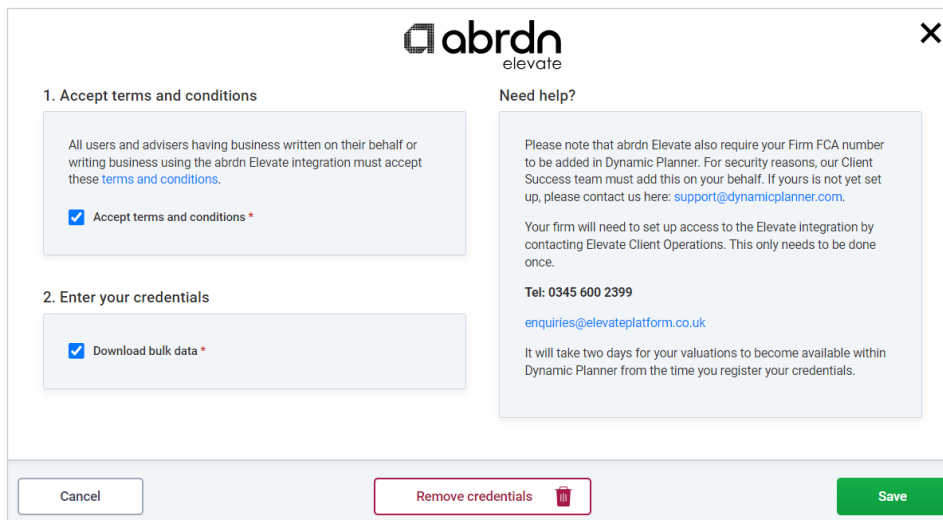

---	---	--	---

7 Amending / deleting credentials in Dynamic Planner

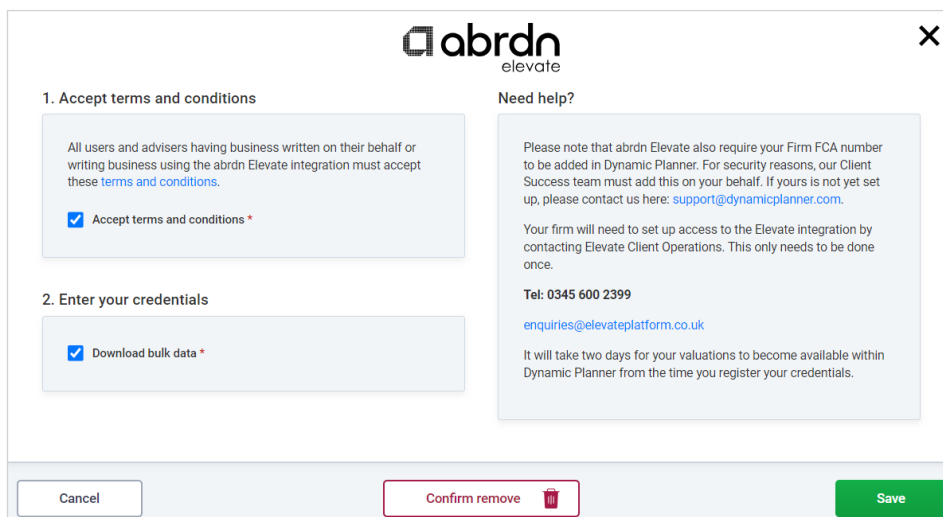

There may be the rare time when you will need to amend your credentials. This could be due to your firm changing FCA number or issues with a previous set up.

Best practice is to delete your existing credentials first and then follow the steps earlier in this guide.

Click on the name of the integration partner that you want to remove. In the example below abrdn elevate has been selected. To remove your credentials, click on **Remove credentials** at the bottom of the page.

You will now see that the button has changed to **Confirm remove**. Click this button.

To add a new set of credentials, follow the steps previously outlined in this guide remembering that once you enter your new credentials, it will take one full working day for them to be updated within Dynamic Planner.

8 Updating Unipass expiry dates

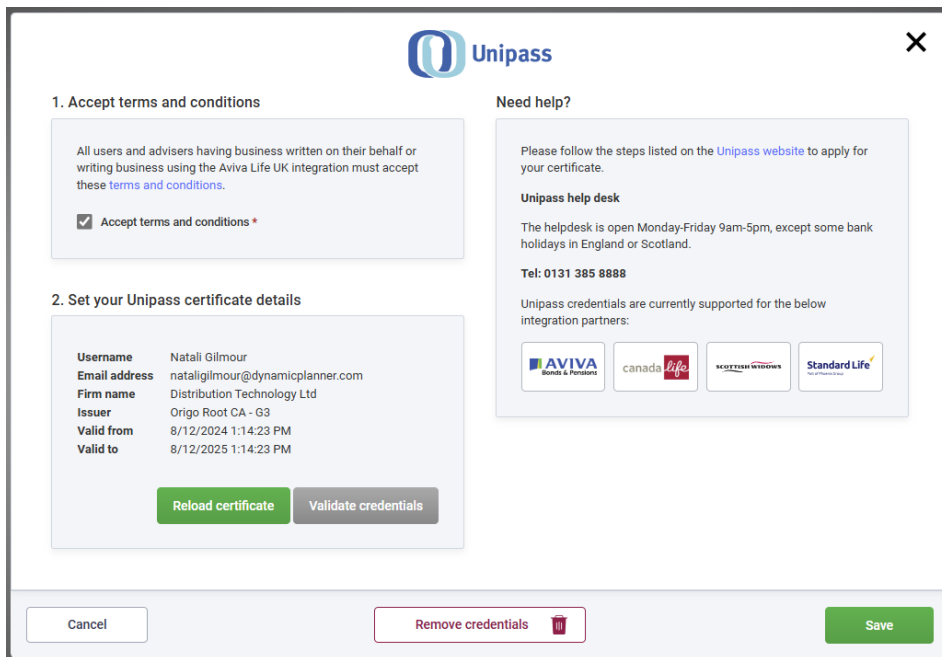

Any integrations set up by using Unipass need to be updated each year to maintain the validity of your certificate.

In the **Settings** area, select **Integrations** then go to the **Platform and provider** page.

Click the logo for the integration partner that you want to amend the credentials for. You can choose any of the Unipass integration partners to access the screen for all.

At the bottom of the page, click **Remove credentials**.

✕

1. Accept terms and conditions

All users and advisers having business written on their behalf or writing business using the Aviva Life UK integration must accept these [terms and conditions](#).

Accept terms and conditions *

Need help?

Please follow the steps listed on the [Unipass website](#) to apply for your certificate.

Unipass help desk

The helpdesk is open Monday-Friday 9am-5pm, except some bank holidays in England or Scotland.

Tel: 0131 385 8888

Unipass credentials are currently supported for the below integration partners:

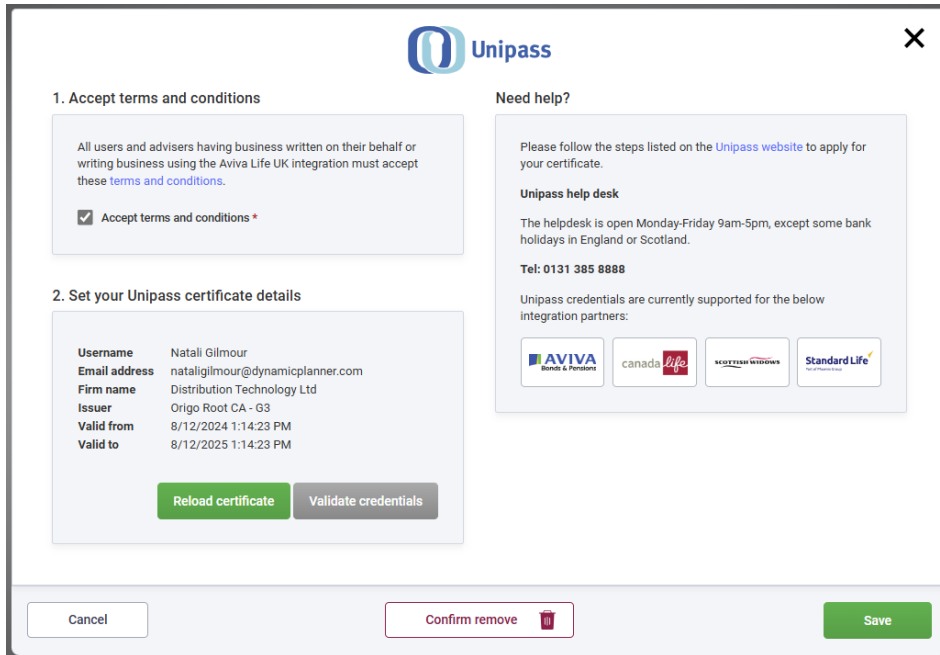

2. Set your Unipass certificate details

Username	Natali Gilmour
Email address	nataligilmour@dynamicplanner.com
Firm name	Distribution Technology Ltd
Issuer	Origo Root CA - G3

Valid to	8/12/2025 1:14:23 PM

Reload certificate
Validate credentials

Cancel
Remove credentials 
Save

Then **Confirm remove**.

The image shows a screenshot of the Unipass interface. At the top, there is a Unipass logo and a close button (X). The interface is divided into two main sections: '1. Accept terms and conditions' and '2. Set your Unipass certificate details'. In the first section, there is a checkbox labeled 'Accept terms and conditions *' which is checked. In the second section, there is a table of certificate details and two buttons: 'Reload certificate' and 'Validate credentials'. To the right of these sections is a 'Need help?' section with contact information for the Unipass help desk. At the bottom of the interface, there are three buttons: 'Cancel', 'Confirm remove' (with a trash icon), and 'Save'.

1. Accept terms and conditions

All users and advisers having business written on their behalf or writing business using the Aviva Life UK integration must accept these [terms and conditions](#).

Accept terms and conditions *

2. Set your Unipass certificate details

Username	Natali Gilmour
Email address	nataligilmour@dynamicplanner.com
Firm name	Distribution Technology Ltd
Issuer	Origo Root CA - G3
Valid from	8/12/2024 1:14:23 PM
Valid to	8/12/2025 1:14:23 PM

Need help?

Please follow the steps listed on the [Unipass website](#) to apply for your certificate.

Unipass help desk

The helpdesk is open Monday-Friday 9am-5pm, except some bank holidays in England or Scotland.

Tel: 0131 385 8888

Unipass credentials are currently supported for the below integration partners:

Buttons: Cancel, Confirm remove, Save

Follow the steps in section 5 How to get started with integration partners supported by Unipass.

Please note: If you have amended your Unipass certificate in Dynamic Planner, you may need to check that this is also uploaded to the integration partners that work using Unipass to ensure that they match.

9 Adding / amending Account and Plan reference numbers

To request valuations from integration partners, you need to add in the client's reference numbers into Dynamic Planner.

Please note: integration partners have very specific instructions regarding the numbers you must enter in Dynamic Planner so please read any instructions shown on screen for the specific integration partner. There are a number of ways to enter in the client's reference numbers in Dynamic Planner.

You can do this when in a specific module: Client Review, Recommendations or Cash Flow.

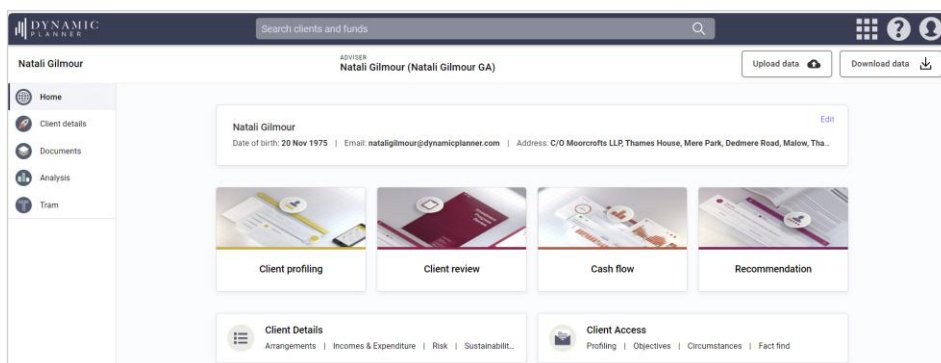

Within the **Arrangements** section, go into the **green Actions** button, and select **Request Valuations**:

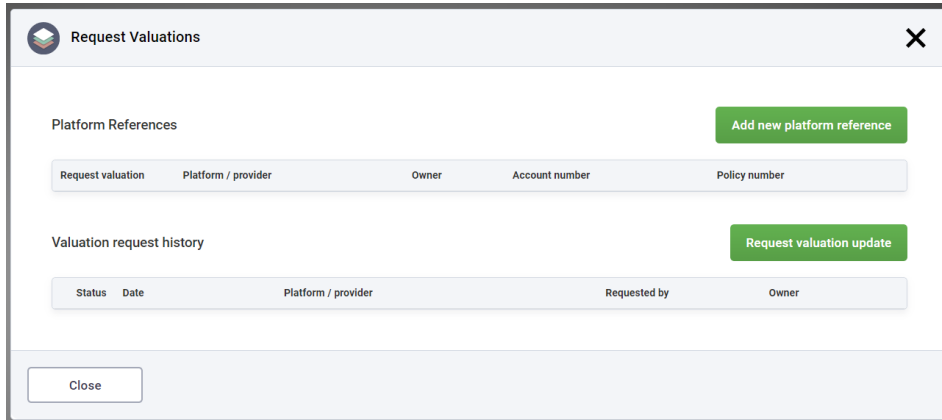

You can also do this from the client dashboard.

Search for your client in Dynamic Planner to land on the client dashboard.

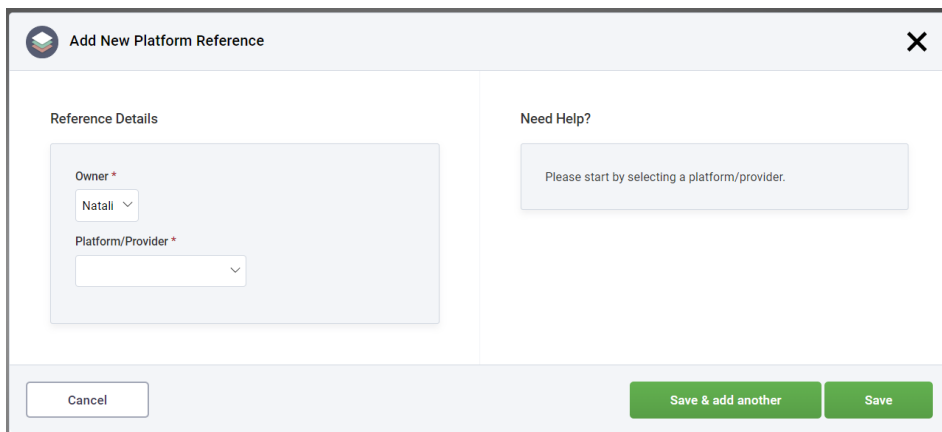

You can access arrangements from the left hand menu under Client details, or from the middle of the page.

Select **Arrangements, Actions** then **Request valuations**.

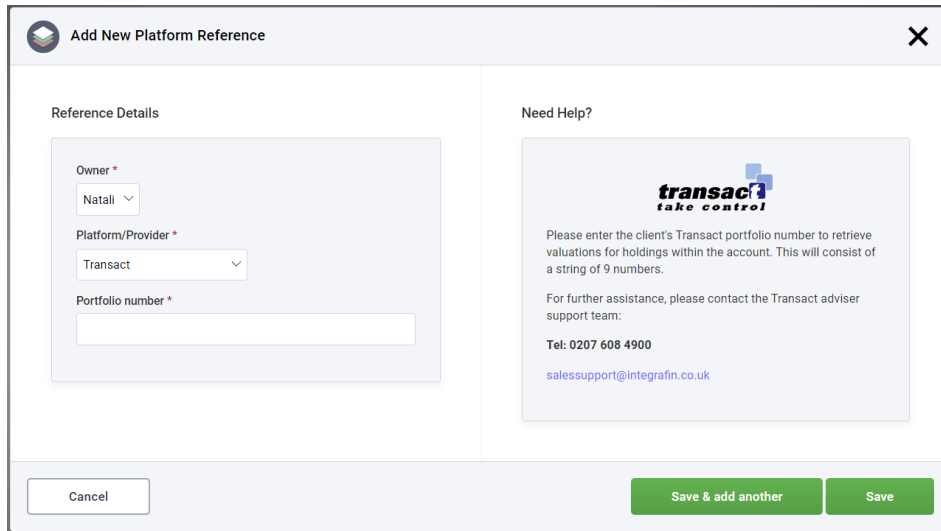

You need to add in the reference numbers by selecting **Add new platform reference**.

In this example, we will look at a client with a Transact plan. From the **Platform/Provider** drop down menu select Transact.

Under the heading Need Help?, you will see the information supplied by Transact to help you to understand the reference that you need to enter. Transact need a Portfolio number that could be a string of 9 numbers.

The screenshot shows a dialog box titled "Add New Platform Reference" with a close button (X) in the top right corner. It is divided into two main sections: "Reference Details" and "Need Help?".

Reference Details:

- Owner ***: A dropdown menu with "Natali" selected.
- Platform/Provider ***: A dropdown menu with "Transact" selected.
- Portfolio number ***: An empty text input field.

Need Help?:

transact
take control

Please enter the client's Transact portfolio number to retrieve valuations for holdings within the account. This will consist of a string of 9 numbers.

For further assistance, please contact the Transact adviser support team:

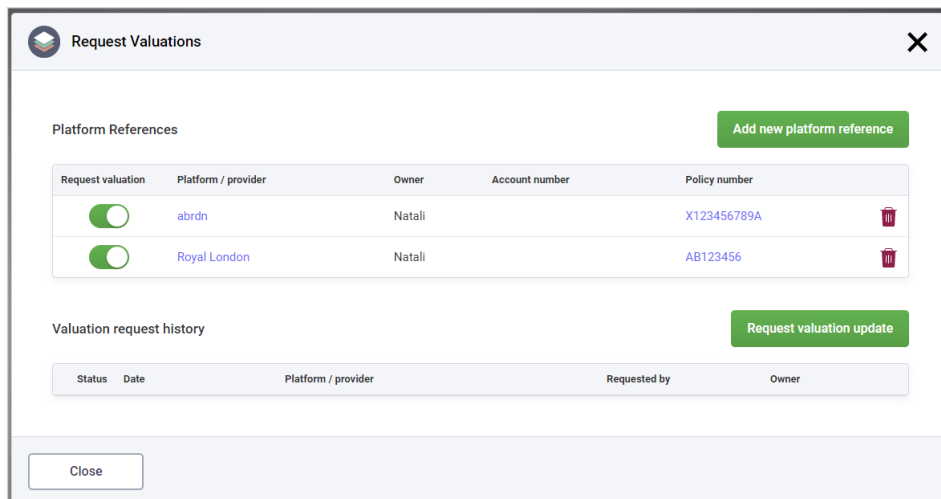

Tel: 0207 608 4900

salesupport@integraftn.co.uk

At the bottom of the dialog, there are three buttons: "Cancel", "Save & add another", and "Save".

- ▶ **Select the owner** for the plan. If you have selected a single client, you will see their name in the dropdown menu. If it's a joint client plan, you can select any of the single clients or the joint owner, if appropriate.
- ▶ Enter the **Portfolio number**.
- ▶ Click **Save** or **Save & add another** if you have more than one plan to add.
 - ▶ Save & add another does not have to be the same provider/platform.

If you have entered credentials and saved them, the toggle will go to green under Request valuation.

The screenshot shows a dialog box titled "Request Valuations" with a close button (X) in the top right corner. It contains two main sections: "Platform References" and "Valuation request history".

Platform References:

Request valuation:

Platform / provider: abrdn | Royal London

Owner: Natali | Natali

Account number: |

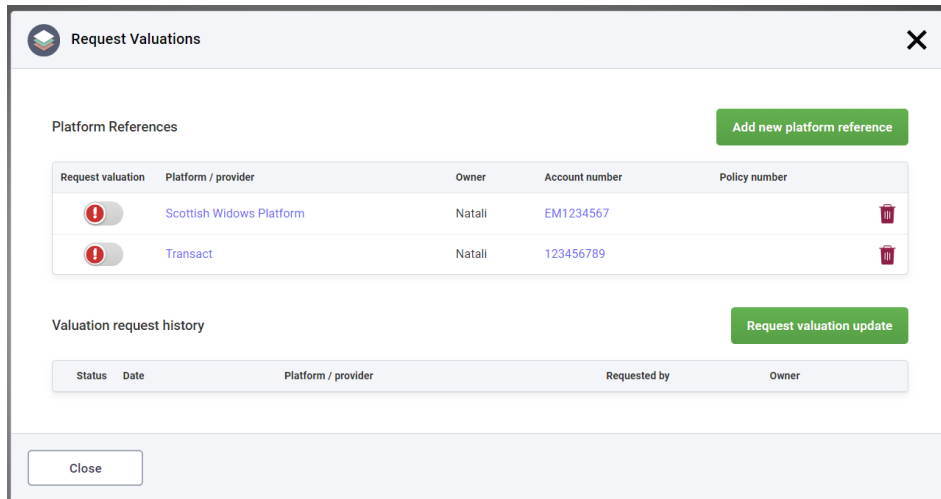

Policy number: X123456789A | AB123456

Buttons: "Add new platform reference" (green), "Request valuation update" (green), "Close" (white)

Valuation request history:

Status	Date	Platform / provider	Requested by	Owner
<input checked="" type="checkbox"/>		abrdn		Natali
<input checked="" type="checkbox"/>		Royal London		Natali

If you have not entered credentials in the Settings page for the platform/provider, you will see these shown as red with an exclamation mark.

Request Valuations

Platform References Add new platform reference

Request valuation	Platform / provider	Owner	Account number	Policy number
	Scottish Widows Platform	Natali	EM1234567	
	Transact	Natali	123456789	

Valuation request history Request valuation update

Status	Date	Platform / provider	Requested by	Owner
--------	------	---------------------	--------------	-------

Close

Once you have added the required information, you will:

- ▶ View all the policies entered and the owner.
- ▶ Have the ability to toggle integration partners on or off depending on the valuations you want to receive.
- ▶ Click on the integration partner name to go straight to the page to update your credentials.
- ▶ Click on the Account number or Policy number to edit an existing reference.
- ▶ Delete a plan from being able to request valuations.
- ▶ Request a valuation.
- ▶ View the results of your valuation requests.

10 Requesting valuations

Within the **Arrangements** tab, go into the **green Actions** button, and choose **Request Valuations**.

Ensure that you have already added your provider references, if not, refer to the previous section.

Toggle the references on/off to show the valuations you want to receive, then click **Request valuation update**.

Valuation request history					Request valuation update
Status	Date	Platform / provider	Requested by	Owner	

When you request a valuation, a countdown will begin, and the request button will be greyed out.

Valuation request history					Refreshing in 3 seconds, do not leave this page...	Request valuation update
Status	Date	Platform / provider	Requested by	Owner		

Successful messages

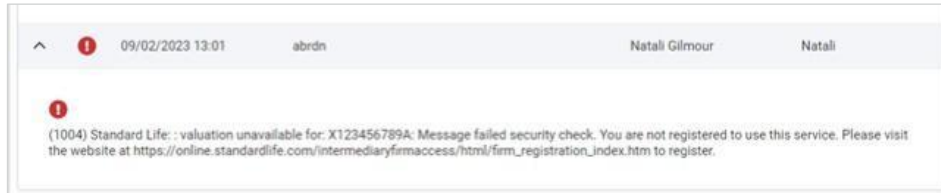

If successful, you will be presented with a confirmation message.

Platform References					Add new platform reference

<input checked="" type="checkbox"/>	Royal London	Amy		87654321	

Valuation request history					Request valuation update
Status	Date	Platform / provider	Requested by	Owner	
^	✓ 09/11/2023 16:32	Abrdn	Charu Goel	Amy	
✓	Policy key SP1060000-002 GIA created successfully.				
✓	Policy key SP1060000-003 ISA created successfully.				

Unsuccessful / error messages

If unsuccessful, you will be presented with further information by expanding the  icon.

In the example above, this is due to not having registered with the integration partner before and the Unipass certificate not matching what you have on your system.

Other reasons could be:

- ▶ Plan number does not match what the integration partner holds.
- ▶ You are not registered to receive valuations from the integration partner.
- ▶ Issues with Unipass.
- ▶ If Unipass, you have not registered with the integration partner to receive valuations.
- ▶ Your firm FCA number is not shown in Settings > Firm Details > Firm settings.
- ▶ The adviser firm currently does not have authority for the policy or account you entered in the valuation request.
- ▶ The credentials do not match what the integration partner has for your firm.
- ▶ The integration partner's system is temporarily unavailable.
- ▶ Dynamic Planner's system is temporarily unavailable.

11 Selecting a valuation

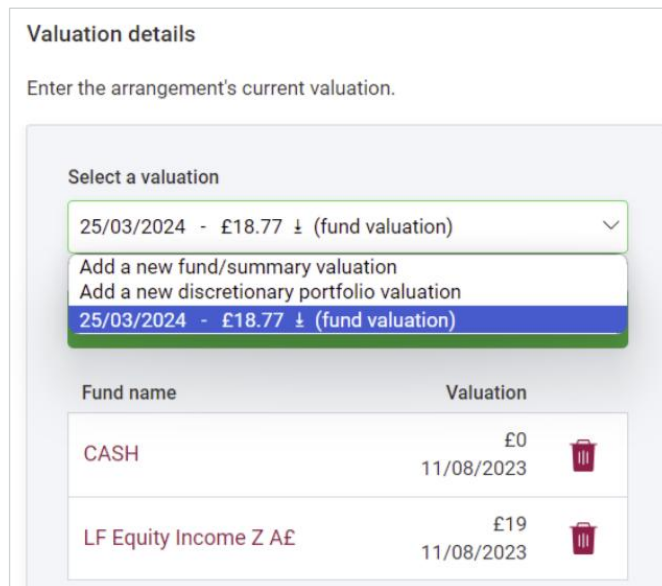

When you are working within the start or end valuation sections in a client review, cashflow or recommendation, you will be able to select the appropriate valuation based on the period you are working on. You can add a valuation manually, but you'll also see any valuations that have been requested electronically and these will show an icon to the right of the date and value.

You can also reset the valuation for the arrangement(s) in the portfolio nearest to the start and end dates.

Reminder: depending on the nature of the integration that we hold with partners, you may receive a valuation that has today's date, or it may be close of play the previous working day.

Select the appropriate valuation. You will see an icon to the right of the valuation amount to show that it has been obtained from the integration partner.

12 My client is on Tram. What do I have to do to get a daily valuation to them?

If you have given your client access to Tram, you may be able to provide them with daily valuations. The Tram app works for our integration partners who provide Dynamic Planner with a bulk valuation feed. This ensures we can show your client a valuation each day.

Make sure you have registered with each of the integration partners you have business with, and you have input the client's account or policy number into the Request valuations page.

Once you have requested the first valuation and received a successful message, you do not need to do anything further. Your client will continue to receive a refreshed daily valuation when they log in to Tram.

If the integration partner does not provide a bulk valuation file, to ensure your client has an up to date valuation, you will have to come into Dynamic Planner and manually request a valuation direct from the integration partner.

If you would like any further information about Tram, please contact your Account Manager or our Support team.

13 List of Bulk providers

Dynamic Planner's preference is to receive valuations via a daily bulk feed. This is less invasive for integration partners and ensures that we have a valuation for you each time you log into Dynamic Planner.

The valuation that you will receive in Dynamic Planner will be the valuation at close of business the previous working day. There may be a slight difference in the valuation that you or your client may view on the integration partners own secure website. Our current list of integration partners who provide a bulk feed are indicated by the Tram logo.

Valuations supported by Tram
Clients with an active Tram account will be automatically revalued each night for supported platforms.

If there are any platforms or providers that you would like to see Dynamic Planner integrate with, please contact Integrations@DynamicPlanner.com.

14 Does a bulk valuation mean that I no longer have to request a valuation each time I need one?

If you have set up your client to have access to Tram, then once you have requested your first valuation, both you and the client will see an updated daily valuation.

As a licenced Dynamic Planner user, you can choose the valuation that you wish to use during the financial planning process by clicking the dropdown within an arrangement and selecting a valuation date in either of Valuation at start of review or Valuation at end of review.

If you don't have a client that is using Tram, you will need to pull through the valuation by Request valuations.

15 Processes and products supported by each of the integration partners

There may be some specific steps that you have to follow when setting up a particular integration partner. These are outlined below.

Our integration partners may not provide support for all their products, especially legacy products. The lists below show the products that are supported via the integration with Dynamic Planner.

7iM - Registration

To register for the integration, contact your 7iM Account Manager or email their support team to arrange your access credentials:

Tel: 020 7760 8777

dataexchangesupport@7iM.co.uk

7iM will provide you with a specific username and password for the integration.

Supported policy number

Enter your client's 7iM policy number beginning with IMF.

For any assistance with policy information, contact information@7im.co.uk or phone 020 7760 8777.

Supported products

Product
7iM ISA
7iM ISA (Ex PEP)
7iM Individual Investment Account
7iM Joint Investment Account
7iM Onshore Bond
7iM Offshore Bond

abrdn Wrap (Bulk) - Registration

You must email wrap_servicing@abrdn.com with the subject heading Back office integration and the following wording: This email is confirmation that we give our permission to share data with Dynamic Planner for the valuations integration with abrdn.

Firm Name: <INSERT FIRM NAME HERE>

Firm FCA Number: <INSERT FIRM FCA NUMBER HERE>

Your firm FCA must be input into Dynamic Planner's system. You can check this by contacting our Support Support Team.

Supported Account numbers

Wrap products WPnnnnnnn (where n = a number)

FundZone SPnnnnnnn – Accounts set up before Feb 23
 WPnnnnnnn – Accounts set up post Feb 23

If you need any assistance with account numbers, contact wrap_servicing@abrdn.com

Elevate Pension Investment Account Scheme 2 (Elevate PIA - Scheme 2)

Aegon ARC/AOR (Bulk) - Registration

To enable Aegon ARC Bulk Valuations you must first email escalationteam@aegon.co.uk and ask for your firms ARC bulk valuation feed to be switched on for Dynamic Planner.

Assets on AOR are provided via a separate feed, so please ask for this as well if required.

Once the setup is complete, the Aegon team will provide you with a "Connect Id" for ARC and/or a "Connect Id" for AOR which you can enter on the Aegon ARC settings page.

Supported policy numbers

These should consist of a number up to 10 digits long.

If you need further information contact escalationteam@aegon.co.uk

Supported products

One Retirement Drawdown

Aegon Platform (Bulk) - Registration

You need to obtain a token and organisation unit ID. Once you have registered with the platform, visit their Reports section and select the Manage Bulk Data file integration. Once collected, the token is valid for 5 days.

Both the token and the organisation unit ID are numeric only.

Please note: If your MI account password changes, you will have to repeat the above steps with a new set of confirmed credentials provided by Aegon Platform.

Support is available at: escalationteam@aegon.co.uk

Supported policy number

Enter the client's Aegon wrapper ID. This is usually in numeric format.

Please contact the Aegon Platform support team for assistance: escalationteam@aegon.co.uk.

Quilter (Bulk) - Registration

Quilter also require your Firm FCA number to be added in Dynamic Planner. If yours is not yet set up, please contact our Support team.

You will need to register using this link <https://www.quilter.com/siteassets/documents/platform/forms/19951-adviser-back-office-software-registration-request.pdf> and complete the form. It will take up to 5 working days for the set up to be completed and for you to receive your network code.

Your network code is a string of letters and numbers that starts with PLNWnnnnn, if you are directly authorised, or PLARnnnnn, if you are an appointed representative.

If you have already completed and returned the form, but not received your network code, please contact Quilter Adviser Support for further assistance and mention this is in regard to Dynamic Planner valuations.

Tel: 0808 171 2626

ask@quilter.com

Once you have received your network code, enter that into the integration credentials settings screen.

Supported customer reference

Enter the client's account number in the customer reference field to retrieve valuations for holdings within the policy. This should be a string of letters and numbers, for example AC123456789. You do not need to enter the suffix (eg -001, -002 etc). The account number will provide all the underlying policy information and numbers.

For assistance contact Quilter adviser support team on 0808 171 2626, ask@quilter.com

Supported products

Product

Collective Investment Account
Collective Investment Bond
Collective Retirement Account

Royal London (Bulk) - Registration

Royal London is a bulk valuation service.

Currently, this provider limits valuation data to a single CRM. Therefore, if your firm already receives Royal London valuations in your current CRM, you won't be able to add Dynamic Planner for this purpose. To enable Royal London valuations in Dynamic Planner, you would first need to stop them from being sent to your existing CRM.

Please note that this limitation is imposed by Royal London, however, we are actively working with them to highlight the importance of multi-CRM valuation feeds for our users.

To register, you must email SalesIFA@RoyalLondon.com with the following information:

- ▶ Subject heading: Bulk Valuations Data Request
- ▶ Your firm's FCA number
- ▶ The name and FCA number(s) of any appointed representatives that also use Dynamic Planner and require access to Royal London bulk valuations
- ▶ Name of the back-office supplier: Dynamic Planner
- ▶ Your name and job title
- ▶ Approval from a Director confirming they are happy for Royal London to share your client valuation data with Origo and Dynamic Planner. This can be done by attaching an email from the Director confirming they have agreed to this data being shared. Note that if you are part of an appointed representative firm, the consent Royal London require is from your principal firm. If Royal London do not receive Director consent in your original request, it will delay setting up the feed.

Once you have had confirmation from Royal London that you have been set up, return to Dynamic Planner and complete the credential screen.

Supported policy numbers

The policy number can be a maximum of 8 digits which can be found on policy documentation.

For assistance contact Royal London adviser support: advisertechnologysupport@royallondon.com

Scottish Widows Platform (Bulk) - Registration

To enable Scottish Widows Platform valuations, you must confirm that you give permission for the data share by sending an email to service@scottishwidowsplatform.co.uk with the heading: Bulk Valuations data services feed, and providing the following information:

This email is confirmation that we give our permission to share data with Dynamic Planner for the valuations integration with the Scottish Widows Platform.

Firm name: <INSERT FIRM NAME HERE>

Firm FCA number: <INSERT FIRM FCA NUMBER HERE>

New firms to the Scottish Widows Platform can request their access as part of the onboarding process managed through their Sales contact.

Please note that to use this service, Scottish Widows Platform also require your Firm FCA number to be added in Dynamic Planner. For security reasons, contact our Support team.

Enter your Scottish Widows Company number into the integrations credentials screen. Note this is not your firm FCA number. This is an EI + 5 numbers (Echo, India) eg EI98765

Supported account number

The client's account number will start with EM followed by 7 numbers: EMnnnnnnn

For assistance, contact the Scottish Widows platform support team, service@scottishwidowsplatform.co.uk

Transact (Bulk) - Registration

Existing Transact platform users need to complete the Transact-Online Form A004 to enable the valuations service. This is available from within the Transact platform. [Transact website \(logged in\) > Housekeeping > Data Services API and generate a TRDS Password \(if they haven't already\)](#). Then enter those details into DP.

Note: Section 2 of the A004 form must be completed with the details below, this way Transact can have the full Remote Data Service Company's details to complete your request for credentials:

RDSC Name: Dynamic Planner

RDSC Contact: Client Services

RDSC Address: C/O Moorcrofts LLP, Thames House, Mere Park, Dedmere Road, Marlow, Buckinghamshire, SL7 1PB.

Alternatively, if you are not currently a Transact platform user, please contact Transact Sales Support on 0207 608 4900 or email salesupport@integratin.co.uk and advise them that you have a customer with Transact holdings and would like an account.

Enter your Transact integration specific username and TRDS password into the integration credential settings screen.

NOTE: if you use more than one software provider and generate a new TRDS Password then you must update all software providers with this new TRDS Password.

Supported portfolio number

This will consist of a string of 9 numbers, removing all dashes in the portfolio number. For example, portfolio number 123-456-789 must be input as 123456789.

For assistance, contact Transact 0207 608 4900, salesupport@integratin.co.uk

16 Troubleshooting

Dynamic Planner does not support valuations for Trustee or Nominee held investments, or for clients under 18 years of age.

Check your Firm FCA number has been added to Dynamic Planner > Settings > Firm Details > Firm Settings.

Valuations can only be requested for products that are supported by our integration partners. The list of supported products for each integration partner can be found in this guide.

Any products which are not supported by the valuation service, may need to be added to the system manually.

Each integration partner will require different information to register. Please ensure you have completed all steps required for the valuation service.

Make sure that the integration partner has confirmed that you are set up to receive valuations.

Wait a full working day to allow your credentials to register against our security database, then try to request a client valuation.

You may need to register for back office / contract enquiry valuations with the integration partner. You should check in the correct section for the integration partner in this guide for a link to their website which will provide you with further information.

Where a provider works with Unipass, you will have to upload your new certificate when it expires each year and ensure that your Unipass certificate matches what is on the integration partners site, for example, valid to/from dates.

If there are any pending trades, this information will not pull through into Dynamic Planner.

Currently, Royal London limits valuation data to a single CRM. Therefore, if your firm already receives Royal London valuations in your current CRM, you won't be able to add Dynamic Planner for this purpose. To enable Royal London valuations in Dynamic Planner, you would first need to stop them from being sent to your existing CRM.

Please note that this limitation is imposed by Royal London, however, we are actively working with them to highlight the importance of multi-CRM valuation feeds for our users.

The valuation is not as I expected

Dynamic Planner may be able to bring in the valuation for you, but it may not be what you expected. This could be for a number of reasons.

▶ Could not categorise the arrangement

We may receive details for an arrangement that we do not know how to categorise. Where this occurs, we will display a message and ask that you edit and select the appropriate product type.

▶ Dynamic Planner could not identify the funds in the arrangement

If we don't recognise a fund and are unable to match it with a fund code, we will ask that you match it to an existing fund or update the asset allocation. We will remember this information and store it for the next time the valuation is requested.

Fund name	Valuation
Cash Unmatched fund	£7,161 21/07/2014
<u>Scottish Widows Bank plc 5 Year Fixed Term Pension Fund Deposit Account</u> !	£420,000 23/06/2014
SIPP FundZone BlackRock European Dynamic D Acc	£9,285 21/07/2014

- ▶ The asset allocation for one of more funds in the arrangement does not equal 100%
The asset allocation may not equal 100%. You can override the asset allocation as appropriate.

Asset allocation

This section shows the asset allocation for the fund, and the quality of the data available. You can override the provided asset allocation.

UK Equity	0.72%
Europe ex UK Equity	9.58%
Total !	10.30%

Override

17 Unipass issues

- ▶ The Unipass certificate has not been uploaded to Dynamic Planner or an incorrect Unipass certificate has been uploaded where the information held on certificate does not match the information on the provider's servers.
- ▶ The Unipass certificate user must match the Dynamic Planner licence holder.
- ▶ The adviser has not validated their Unipass certificate using the onscreen validation function.
- ▶ The Unipass certificate being used has expired or been revoked. A new electronic version of the certificate needs to be uploaded annually.
- ▶ An adviser has not registered to use the provider, or has not registered their Unipass with the provider to access the service and is using alternative credentials.
- ▶ The adviser's Unipass is not recognised in their web browser or available for download due to their firewall settings. Amend set up to allow the use of certificates.
- ▶ To test if the certificate is visible, click on the Test My Certificate feature that is available via the Unipass website.
